2019 GRANT AWARDS ANNOUNCEMENT

Edison International and California Fire Safe Council are pleased to announce 8 projects have been selected for funding for the 2019 Edison International Fire-Safe Community Grants Program.

The selected projects will help Southern California communities located in Edison service areas to respond to the growing concern over catastrophic wildfire while exemplifying efforts to create fire adapted communities. This funding will allow organizations such as Fire Safe Councils to implement activities to assist with capacity building, community outreach and preparedness, permit-ready hazardous fuel treatment projects, and purchase much needed supplies and equipment.

Congratulations to the Fire Safe Councils, Resource Conservations Districts, Fire Departments, Fire Protection Agencies, and other organizations whose projects were selected for funding.
