

Partnering
with

STATE-CERTIFIED
LOCAL
CONSERVATION
CORPS

Agenda

Who are the Local Corps?

What communities do they engage?

Where are they located?

What skills do they bring?

How can you partner with them?

Who are the California Association of Local Conservation Corps?

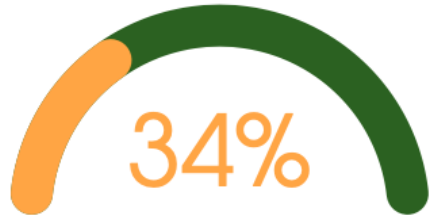

CALCC is the network of California's 14 state-certified community ("local") conservation corps, a proven American legacy program that serves disenfranchised young people and their communities through conservation work, education and community service.

DURING FY 18-19

LOCAL CORPS SERVED...

OVER **3,000** CORPSMEMBERS

FEMALE CORPSMEMBERS

MALE CORPSMEMBERS

What resources do the Local Corps bring to your project?

The Local Corps can provide supervised crews of 18-25 year olds to perform these and other tasks:

- Brush and vegetation removal
- Cutting fuel breaks
- Planting trees
- Invasive plant removal via herbicide, mechanical, & hand
- Trail restoration, construction, and maintenance
- Tree cutting with chainsaws and tree removal
- Wood chipping for high risk and disadvantaged communities
- Fence & other structure construction or removal
- Landscape construction
- Native and/or post-fire habitat restoration
- Forest restoration, including seed collection, propagation, vertical mulching, slashing & more
- Community outreach & education

To partner with your local corps:

Contact Stephen Myers: Stephen@caleec.com or (916) 793-5540

Or reach out to the corps closest to you
