

Built To Serve

OVERVIEW

Founded by two Marine veterans in response to the 2010 Haiti Earthquake.

Team Rubicon conducts disaster relief operations domestically and internationally.

Staff:

- *177 full-time employees.*
- *1,691 volunteer leaders.*
- *138K members across 3 geographic branches*

TR is a 501(c)(3) non-profit organization in good standing with the IRS.

Recognized for transparency by top charity advisors.

- *Platinum Rated by GuideStar*
- *4/4 Stars from Charity Navigator.*

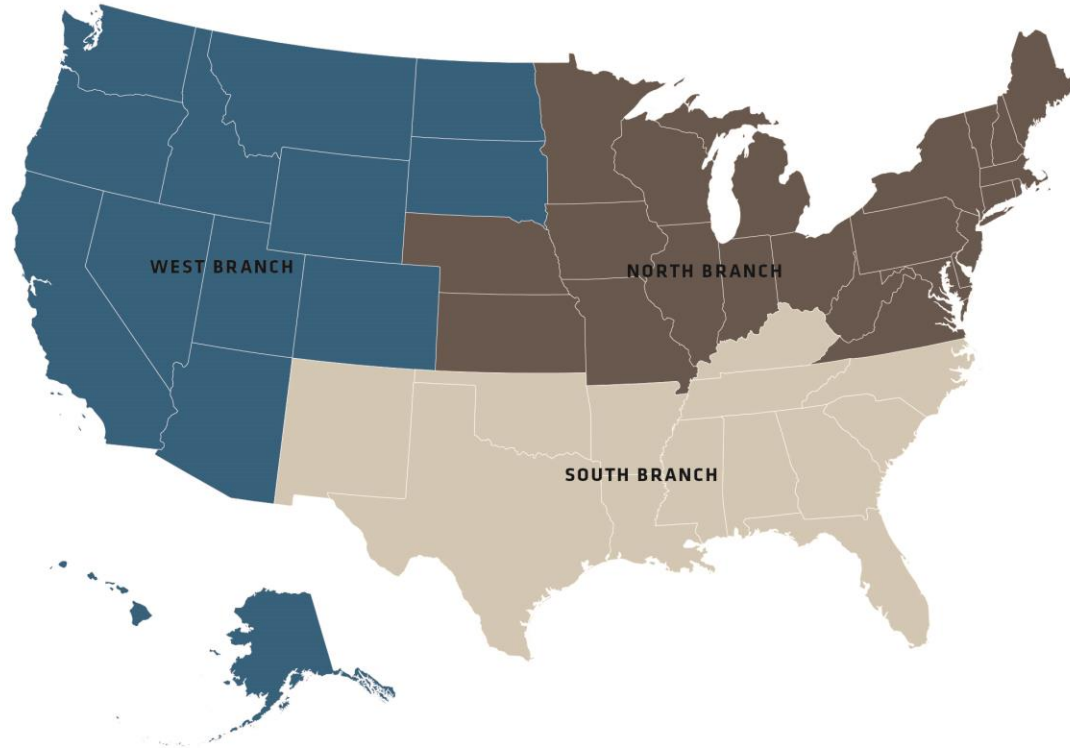

OUR BRAND

Team Rubicon is not your grandmother's disaster response nonprofit, unless your grandmother curses like a sailor, runs a chainsaw, and refuses to accept the status quo.

Our brand is built around grit, determination, and transparency. We believe that all of us are built for something. And the men and women who volunteer with Team Rubicon are built to serve.

HOW WE OPERATE

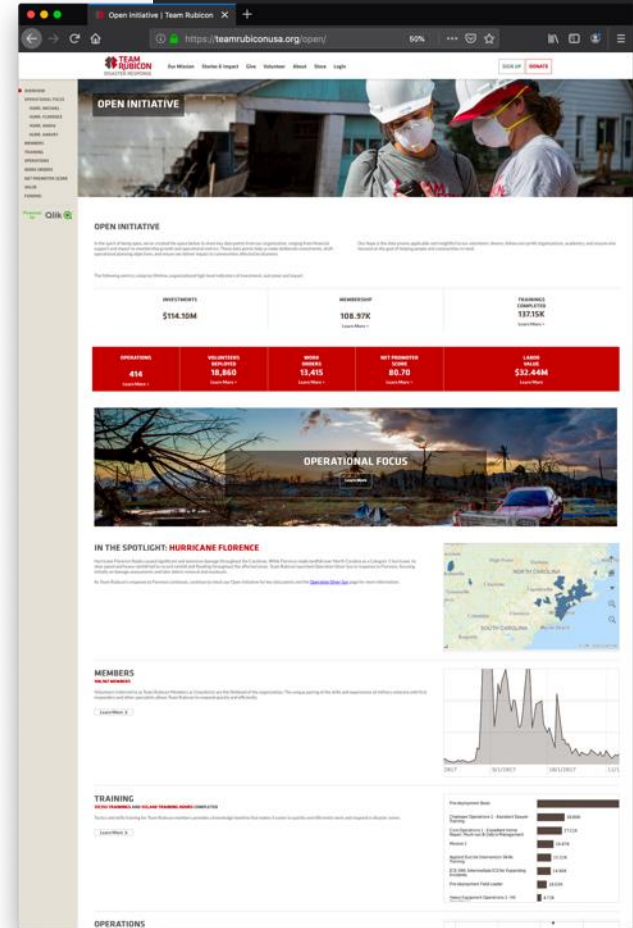

BUILT TO SERVE

Team Rubicon serves communities by mobilizing veterans to continue their service, leveraging their skills and experience to help people prepare, respond, and recover from disasters and humanitarian crises.

TRANSPARENCY

Providing our donors and the public an honest (and sometimes difficult) look into disaster response is a core tenet of our organization. Transparency fosters trust, whether it's through honest, challenging reflections or storytelling from the field or reports on our financial or operational KPIs via our online transparency dashboard, the Open Initiative.

- Disaster First Aid
- Stop the Bleed
- Ham Radio
- Wide Area Search

Geographic Area Districts

- 9 Districts
- City / District Admin
 - Membership
 - Plans
 - Field Ops
 - Communications
 - Logistics

A firefighter in full gear is captured in the middle of cutting through a large log. The scene is filled with a spray of wood chips and dust, indicating a powerful cut. Two other firefighters, wearing grey t-shirts with 'TEAM RUBEN' printed on them, stand on either side of the central firefighter, observing the process. The background shows a residential building with a corrugated metal roof and some trees.

CAPABILITIES

RESPONSE & RECOVERY CAPABILITIES

Debris Management

- General Debris Removal
- Chainsaw Operations
- Heavy Equipment Operations
- Structure Demolition
- Muck Outs / Tarping
- Window Boarding
- Access Clearing
- Route Clearance

RESPONSE & RECOVERY CAPABILITIES

- (3) 40 Yard Bins
- IsraAid, UMCOR, ENLA
- 1.5 Work Days
- 21 Greyshirts

Local Projects

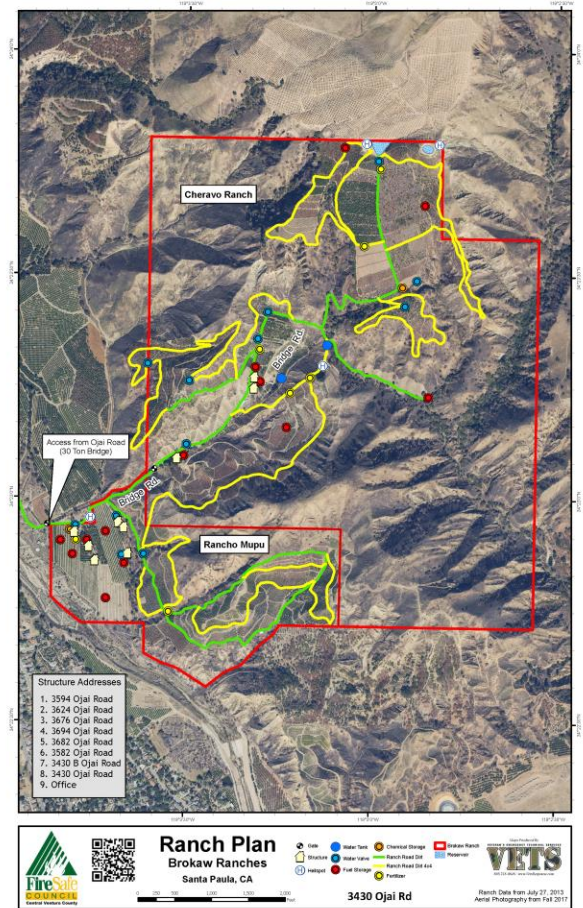

Home Ignition Zone Inspections

Chipper Events

Ranch Plans

- In 2019 we started providing Home Ignition Zone (HIZ) inspections.
- We soon realized that we were not making the impact that we had hoped for.

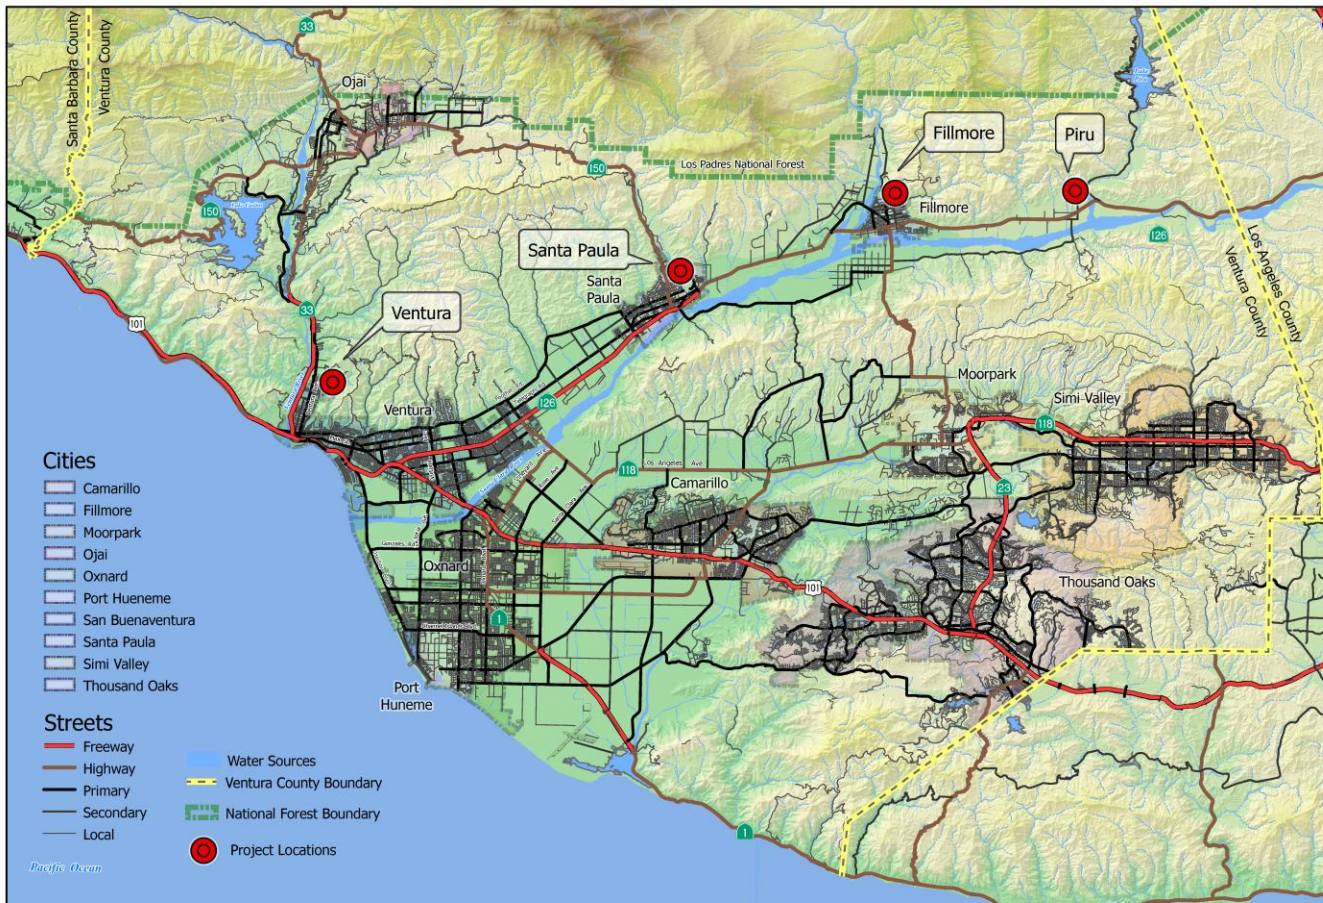

In late 2021 Team Rubicon wanted to get larger comprehensive fuel modification projects in the works.

This fit nicely into what the fire safe council was looking to do.

After consulting with the Ventura Regional Fire Safe Council, Ventura County Fire and Fillmore FD six sites were identified across Ventura County as possible fuel modification sites.

Proposed Wildfire Mitigation Locations

Ventura County

Once the recon was completed it was determined that three of the sites met our operational requirements.
